Imagine and Create

Imagine you build your own "time machine".

What happens when you turn yours on?

Draw a picture of your time machine.

Critical Thinking

Why do you think Kathi decided to fix the machine and turn things back to normal?

What are two things you can mix together to make something new?

Kathi likes to create machines. What is something you like to create?

What do you think would happen if someone made an actual up-sidedown machine?

You Are Upside-down!

Can you get Kathi to the upside-down machine and turn it off?
